

Samuel Hulla, MSc.

Engineering Manager & Developer

- 📍 Prague, Czech Republic
- 📞 +420 602 329 073
- ✉️ hulla@hulla.dev

🗨️ Engineering Manager (Technical Fullstack Developer background) with 8+ years of experience building scalable web and mobile applications. Expert in modern fullstack development, DX and AI, and leading technical teams to deliver high-quality solutions across diverse industries.

📁 Professional Experience

Software Engineer

vidIQ

📅 2025 - Present

- Working in a US-based startup focused on content creation and AI automation
- Building a Chrome extension, web app, backend, and mobile app
- Driving product development, AI orchestration, and automation

 React / TypeScript

 AWS

 Extension SDK

 Bun / Node.js

 Claude / OpenAI / Nanobanana

 MCP / Agents

Engineering Manager / Technical Lead

Webscope.io

📅 2022 - 2025

- Led multiple technical teams across various client projects, managing project lifecycles from requirements to delivery
- Oversaw technical architecture decisions, established development standards, and mentored junior developers
- Facilitated communication between stakeholders, technical teams, and clients to ensure project alignment and successful delivery

 React / Next.js / Astro / Vue

 React Native / Expo

 Node.js / Express

 Supabase / Firebase

 TypeScript

 CI / CD / DevOps

 Rust / Go / Postgres / LibSQL

 Team Leadership

 Project Architecture

Software Developer

Webscope.io

2017 - 2022

- Developed web and mobile applications across various client projects, focusing on frontend and fullstack development
- Implemented modern development practices and contributed to technical standards establishment
- Collaborated with teams to deliver high-quality solutions and gained expertise across multiple technology stacks

 React / Next.js

 React Native / Expo

 Node.js / Express

 Firebase

 TypeScript / JavaScript

 CSS / Styling

 Testing / Jest

 Git / Version Control

Consultant & Developer

Various projects

2020 - 2024

- Delivered consulting and side-project work across MediaCatch, Fee-ups, Skychatters, Ruepoint, GSR, and Staffers
- Guided an AI-powered media intelligence platform from concept to launch, including architecture planning and technical strategy
- Built web and mobile products spanning event hiring, authentication systems, and NFC-based certification workflows

 Meta frameworks

 CMS (Sanity, Prismic)

 Architecture Planning

 Azure / Google Cloud Platform

 Typescript, Go, Rust

 PostgreSQL, SQLite

 DevOps & DX

 Mobile (React Native)

 Agentic Development

Open Source & R&D

AI Code Analysis Tool

Websummit R&D Project

2024

- Developed an AI-powered application for analyzing code patterns and quality - presented at Websummit 2024 at the stand mainly as a sales tool.
- Built with Rust backend and Turso database for high performance and reliability

 Rust

 Turso

 AI/ML models

@hulla/ Package Ecosystem

Open Source Project

2021 - Present

- Developing a suite of open-source TypeScript packages for web development

- Created modular libraries for UI components, styling, API fetching, documentation, command-line arguments, and functional results handling
- *Packages:* @hulla/api, @hulla/style, @hulla/ui, @hulla/control, @hulla/args, @hulla/fetch, hulla cli

 TypeScript

 Node

 Turborepo

 CLI

 NPM

 Jest

 GitHub Actions

 Semantic Versioning

Education

MSc, BSc - Honor roll

Brno University of Technology

 2016 - 2022

Top 200 QS World University Rankings

Certifications

-  Harvard LEAD1X
Management & Leadership
-  ISMS Specialist
Information Systems Management & Security
-  InterSystem Cache & Ensemble
Secure Systems Development

Languages & Interests

Languages

English (IELTS C1)
German (Deutsches Sprachdiplom C1/B2)
Czech & Slovak (Native)
